### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 4-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Mitsuya (cited reference JP3-817191A). The fusing device by Mitsuya teaches a heated roller 1, a pressure roller 2, a manifold 5 adjacent the nip, and an air source control that varies the air pressure based upon the weight of a sheet (abstract).
